Summary

Mechanical engineering with well-honed technical and management skills, seeking a career opportunity in a dynamic organization that encourages hard-work and innovation so that I can put to use the best of my abilities for the welfare of the organization and personal growth.

Education

- **B.Sc. Mechanical Engineering (2014-2018)**
UET Peshawar.

Final Year Project (Final Semester):

Design and Analysis of Apron feeder shafts in a Crusher Plant:

This project involved a solution to practical Mechanical problem of Shafts failure in a crusher plant of a Cement Industry, the failing shafts were analyzed for different causes of failure and new shafts were designed for the plant to overcome these failures, in the end the new Design was recommended for the company.

Being the group leader, the project was conducted under my supervision, I used to give the time to time presentations on project progress to our project supervisors.

Professional Experience

Cherat Cement Company Limited (6 weeks, Jul-Aug 2017)

Worked in the mechanical maintenance department as intern where I acquired substantial technical grooming and hands-on experience on different equipment of Crushing and Chemical procedures in Cement Industry.

Accomplishments:

- Active Involvement in routine preventive and corrective maintenance of gears/bearings/compressors.
- Active participation in assessing welding and fabrication activities being carried out in Mechanical Workshop.
- Understood usage of different types of maintenance tools and equipment used in Cement Industry.

The Premier Sugar Mills & Distillery Co. Ltd (3 weeks, Aug-Sept 2016)

Worked in Mechanical Services Dept. as intern where I got exposure of Steam Boilers, steam Turbines and different kinds of transmission and reduction gears, pumps and bearings under operation. I clearly observed different conditions of these equipment during shut down.

Accomplishments:

- Analyzing Oil and lubricants in different bearings and gears system.
- Enhanced Communication and presentation skills with technical and managing staff.
- Helped the team in preventive maintenance of Pumps/gears/bearings.

Interests

Football and Travelling.
