ADDITIONAL INFORMATION

Final Year Project and Thesis

"Recovery of Carbon dioxide from flue gases from primary reformer"

My group has taken this project because of many application of Carbon dioxide in daily life as a gas in soda drinks, precursor for different chemicals and in urea manufacturing industry. It may help us to clean the Environment because we know that Carbon dioxide is Green House Gas.

Honours and awards

- Awarded with **Laptop by Prime Minister of Pakistan** on academic excellence in 2014
