## Mechanical Engineer

### Summary

#### Objective

To develop my career in a prestigious, dynamic, structured and professional organization where I could utilize and enhance my capabilities and skills.

### Employment History

#### Internship Trainee

- **Atlas Battery**

9-Oct-2017 to 10-Nov-2017

During the period of internship I was associated with the assembly department. I had opportunity to see and learn about the battery manufacturing process. I was assigned to make a time and study motion for the packaging of battery in assembly shop

- **BYCO Petroleum Limited**

19-June-2017 to 10-July-2017

During the period of internship I was associated with the maintenance department. I had opportunity to see the maintenance of different component.

#### Teaching Experience

- **National Coaching Center**

2015-2017

Teaching intermediate level physics to the students. This will help me to encourage my presentation skill and also remove the fear of speaking in front of people.

### Qualifications

#### Bachelor of Engineering (MECHANICAL)

NED University of engineering and technology, Karachi

Year completed 2018

#### Intermediate (Pre- Engineering)

DJ Sindh Govt Science College, Karachi

Year completed 2014

#### Matriculation (Science)

HEJ Foundation Public School, Karachi

Year completed 2012

## Final Year Project

### Design Of Oil Filtration System For Crude Canola Oil Team Leader

This project was concerned with the development of the decanter centrifuge. A mathematical model of the different component of the decanter centrifuge has been developed. The primary purpose of this project is to design and drafting of the decanter centrifuge system for MAPAK Edible oils private limited

## Skills

### Technical Skills

- MS Office
- Pro –e
- MATLAB
- Minitab

### Personal Skills

- Leadership
- Active listener
- Research skill

## Certification

Completed two months training on Cero Parametric 2.0 from MS-LOGIC

## Seminar Attend

- 7<sup>th</sup> International Mechanical Engineering Conference (Recent Development In Design, Energy And Alternate Fuel)
- Dynamics Of Leadership And Its Challenges ,Conducted by Mr. Goldschmidt ,held at NED University
- Natural Ventilation :concept and design, Conducted by Mr. John Zhai ,held at NED University
