50/1 Shahid Colony Muslim town Lahore
Lahore, Pakistan

An Electrical Engineer having about **Six months of experience** with sound knowledge of **Switch gears, Relays, Contactors, MCC Panels, Synchronization Panels, ATS Panels** and **Power system** included their **maintenance, designing, installation, testing, and commissioning.**

Strengths & Skills

Electrical Technical Skills

- ✓ Protections in Electrical Circuits
- ✓ Quality Management
- ✓ Proposal Generation
- ✓ Power Factor Correction
- ✓ Dressing of Electrical Wiring
- ✓ Electrical Circuit Design
- ✓ BOQ & LOM Generation
- ✓ Estimation
- ✓ Reverse forward circuit
- ✓ ASD
- ✓ ATS
- ✓ Circuit Breakers
- ✓ Soft Starters
- ✓ Potential Transformer
- ✓ Current transformer

Other

- ✓ Time Management
- ✓ Team Player
- ✓ AutoCAD
- ✓ Researcher
- ✓ Confident
- ✓ MS Excel
- ✓ MS Office

Academics

Title	Institute	Date
Bachelors of Electrical Engineer	University of Central Punjab (UCP), Lahore	2017

Experience Fresh

Company	Designation	Duration	
Green Transmission & Distribution	Trainee Engineer / Internee	Dec 2017 - June 2018	6 months

Work History

Green Transmission & Distribution	Nov 2017 - May 2018 (6 months)
-----------------------------------	--------------------------------

Trainee Engineer / Internee	Lahore, Pakistan
I had Six months of training over their in which i had passed through each phase starting from manufacturing of switchgears to dispatching zone.It was a great experience related to switchgear company.	

NTDC 220/132/11 KV Grid Station WAPDA Town	Aug 2017 - Sep 2017 (1 month)
--	-------------------------------

One month internship	Lahore, Pakistan
During this time period, I have learnt about Generation And Distribution of Electricity which is done at Grid Station. They are having two power lines of 220 KV from NEW KOT LAKHPAT & SHEIKHUPURA. Performing Step Down Conversion into two power levels. One is of 132 KV for nearby grids stations and other is of 11 KV to distribution transformers for household uses.	

Thermal Power Plant	Aug 2016 - Sep 2016 (1 month)
---------------------	-------------------------------

One month internship	Muzaffargarh, Pakistan
During this internship, I have learnt many things related to power plant like Protection Components (Breakers, Isolators, CT, PT, Lightning Arrestors, Surge Arrestors), Process Cycle of thermal plant, Battery Bank Setup etc.
