## **Technical Knowledge:**

**Languages:** MATLAB, Java, C++, SQL, CSS, JQuery, HTML, JavaScript, Latex.

**Software:** Dreamweaver, Microsoft Visual Studio, Oracle, MATLAB, TeXnic Center.

## **Final Year Project:**

**Title:** Detecting bilateral symmetry in single object image through slope matching.

## **Achievements:**

**Research Work:** My research paper is accepted in IEEE conference named IEECON 2018.

In research paper a new methodology is proposed to detect bilateral symmetry in single image object through the matching of slopes of symmetric points which are filtered from feature points. Those feature points are extracted from SIFT algorithm.

**Interests:**

Programming, Reading, Travelling, Pencil sketching and listening to music.
