OBJECTIVE

Looking to secure a position within an established firm where I can put to use my abilities and learning for the benefit of the organization as well as my personal growth as a professional.

EXPERIENCE

1. Mikarna Group - UniPlace

IT Manager — March2018 – Continue

- Plan, designs and develops programs; tests, maintains and documents cloud-hosted, web-based systems management facilities.
- Performs development activities for customized Web applications / Website that have been designed to support the objectives of the organization by using JavaScript, Ajax, JQuery, Laravel 5.2, PHP languages.
- Manages all software development applications/ Web development applications handles bug/ fixes, modernization programs and schedules enhancement activities.
- Serves as the Project Manager for all Web development related projects; prepares and establishes budgets, priority list, risk management parameters and ensures that all deadlines and timetables are consistently met.
- Actively administered and managed the network, workstation operating systems, security systems, safety backups

2. Mikarna Group - JobPlace

IT Executive / Web Developer — Jan2017 – March2018

I was able to work closely with both networking and Website Development teams, gaining firsthand experience of problems solved by an IT department of an organization. The experience allowed me to see up close the skills involved in tackling day to day problems that engineers and IT professionals come across.

EDUCATION

PMAS-Arid Agriculture University Rawalpindi

BS(Information Technology) — October2012 – July2016
CGPA 3.24

Rawalpindi College Of Commerce

FSC (Pre Engineering) —August 2010 – July2012
