Career Objectives

I am enthusiastic person looking for a position as an engineer that will not only provide me a rewarding experience of working with the best mind of the profession but also allow me to contribute my very best to the organization.

Education

Bachelors of Science in Mechanical Engineering

2018

The University of Lahore

CGPA: 3.38

Intermediate (Pre-Engineering)

2014

502 Model College Lalazar Rawalpindi

%age: 65

Matric (Science Group)

2012

Islamabad Model College for Boys Humak Islamabad

%age: 72

Final Year Project

Design and Fabrication of Regenerative Braking System on Bicycle

Design and implemented a Regenerative Braking System using a Flywheel on Bicycle which reduces the human power required for pedaling. In this project, we use flywheel as an energy storage device because it can store large amount of energy in the form of kinetic energy (Rotational).

Industrial Visits

1. Attock Oil Refinery
2. Askari Cement
3. KSB Pump
4. Fibre Craft Industries

Internships

1. Attock Oil Refinery

Duration: 4 Weeks

Outcomes: learnt about the raw material and its storage, types of maintenance, different equipments and its working which include boiler, heat exchanger, pumps, valves, compressors, condensers, distillation towers, storage tanks.

2. MIA group of Companies Pvt. Ltd

Duration: 4 Weeks

Outcomes: Learnt about Different AC units and its components. Also learnt how an AC unit assembles.

Technical Skills

1. Pro-Engineer Software
2. Auto-Cad

3. MS Office

Field of Interest

1. Manufacturing
2. Management

Personal Strength

1. Good Communication
2. Highly Motivated
3. Punctual
4. Capable of working on own initiative
5. Good Management Skills

Personal Profile

Date of Birth: 03-March-1995

Nationality: Pakistani

Language Known: English, Urdu, Punjabi

Hobbies: Cricket
