Semester Project

Project Name

- Electro culture project
about
electric
growing

Description

In this project we discussed
about growing of plants by
batteries, this is for small
plants.

Final Year Project

Project Name

- Hydro Generation and Hydro
power stations in Pakistan

Description

Reclamation would be major source to meet the needs of our
country, in one of the most pressing needs is the growing
demand for electric power. Reclamation power plants can
generate more than
55,000 MW of hydroelectric power, which is three times greater
power to meet the needs of all over Pakistan's demand either
residential, commercial or industrial.

clean, reliable energy sources such as hydropower.

This structuring increases the importance of
