Summary

Over 2+ years of experience in enterprise application development, including software development, database design, documentation and integration using advanced methodologies. I have advanced working knowledge of developing web applications using Asp.net MVC Framework, C#, HTML, JavaScript, CSS and SQL Server. Development follows a complete development cycle with code versioning, reviews and deployment automation even when working with a developer's team.

Experience

Software Developer

At CNS (Dec 2016 – till Date)

- Developed and maintained SQL Server Databases
- Created ASP.NET web forms, MVC5 Views, Controllers and Class libraries containing code for business and data access logic using C#.
- Use HTML, JavaScript, jQuery, Ajax, CSS, and Bootstrap.
- Documents and demonstrates solutions by developing documentation, flowcharts, layouts, diagrams, charts and code comments
- Prepares and installs solutions by determining and designing system specifications, standards, and programming
- Researched, designed and developed software solutions for different industries in conjunction with hardware integration where it needed
- Complete understanding of Software Development Life Cycle
- Present complex technical explanations and proof of concept to non-technical professionals in a clear and concise manner
- Assigning work to interns, designers and technicians
- Understanding of manufacturing industry especially Cement Industry

Education

PMAS Arid University Rawalpindi

BS (Hons.) Computer Science

2012-2016

Technical Skills

Enterprise Application Development

- Provide Web Solutions by using C#, ASP.Net, MVC, SQL Server, AngularJS, JavaScript, and HTML5
