6 Weeks Internship at Heavy Industries Taxila (M-Series). (3 July 2017 – 11 August 2017)

INTERNSHIP: PAKISTAN OIL FIELD LIMITED

4 Weeks Internship at Pakistan Oil Field Limited Khaur. (15 August 2018– 12 September 2018)

PROJECTS:

Semester projects;

- Infrared Remote Control Car Using Arduino.
- Car Wind Screen Wiper Mechanism.
- Rain detector to drive dc motor (automatic car wiper mechanism system).
- Wooden Geneva mechanism.
- Water level indicator.

Final year project;

TITLE:

Track link simulation to predict life of new track link

EXPLANATION:

Fabricated a lab based model for testing life of new track link. It was basically a scale down model of track chain of tanks. All parameters were scaled down by keeping mean maximum pressure of tank as constant. Load was applied through screws and a load cell was fitted and calibrated to display load measurements on LCD.

SKILLS:

- Good communication - written and oral skills
- Excellent conceptual and analytical skills
- Effective interpersonal skills
- Ability to manage time
- Thinks logically
- Ability to work under time pressure
- Team player skills

PERSONALITY:

- Communicative
