Address

101-A, model town B, GOC, street no 9

Bahawalpur, Punjab

Pakistan

Objective

Having recently obtained my Bachelor's Degree in Electrical Engineering, I am currently looking to delve into industrial job to further enhance my knowledge and technical skills so that I can play my part in country's industrial growth.

Education

COMSATS Institute of Information and Technology

Bachelors of Science in Electrical (Electronics) Engineering

CGPA: 2.98 / 4.00

Lahore, PK

2014 – 2018

Superior group of colleges

FSC pre engineering

Marks: 871 / 1100

Bahawalpur, PK

2012 – 2014

Falcon Public High School

Matriculation (math, physics, chemistry and biology)

Marks: 871 / 1050

Bahawalpur, PK

2010 – 2012

Experience

Internee

PTCL (six weeks)

Academic Projects

- Line following Robot
- Reverse Car Parking Object Sensor Prototype
- Mobile phone detector
- Mosquito Repellent prototype
- Distance measuring device
- Bike Safety Alarm

Final Year Project

Virtual Reality Motion Ride provide a sensation of being in a roller coaster ride while sitting on a chair. The system includes mechanical chair that provide 2-axis rotation, an electrical circuit that drives two ac servo motors and a PLC as a controlling device.

Achievement of project includes selection in SSBC (student start-up business center).

Expertise in project includes PLC programming and circuit design.

Award & Achievements

- Member IEEE; Former member of COMSATS Youthe Society.
- Played in School Cricket team.
- Extra Ordinary management effort Award, CIMUN, COMSATS Lahore.

Skills

- **Circuits & Logic Design**, Microsoft Office, MATLAB, LT Spice.
- Microcontroller Interfacing: Arduino (Beginner), **PLC interfacing and coding**.
- Induction motor control through magnetic contact and push buttons.
- Technical Writing and Communication Skills.
- Team work.

Interests

- Reading Current affairs (national level).
- Travelling.
